 91+9008305429

 naveenkumar062913@gmail.com

 Bengaluru, Karnataka, India

SKILLS

Languages :

C/C++, Python, JavaScript, HTML, CSS, SQL, React.js

Key Expertise :

Data Structures, Operating Systems, DBMS , Machine Learning , Full Stack Development
Data Analytics, Pandas, Cloud computing,

EDUCATION

RNS Institute of Technology, Bengaluru

2023 - 2027 : CGPA 7.64

Acquired a solid understanding of computer science fundamentals, including programming, object-oriented concepts, databases, operating systems, and software engineering. Applied this knowledge by developing projects and strengthening analytical and problem-solving skills.

PROJECTS

Sukriva (AI - Powered resume screening with Recommendation system) -2026

Developed Sukriva, an AI-powered resume screening platform that automates resume classification, resume scoring, skill gap analysis, and job recommendations using Python, Scikit-learn, TF-IDF, and interactive dashboards.

Fraud Transaction Detection Using Machine Learning -2026

Developed a machine learning-based system to detect and classify fraudulent financial transactions using transaction data. Built a predictive pipeline with data preprocessing and classification techniques to identify suspicious transactions and improve fraud detection accuracy

Smoke and Fire detection using machine learning - 2025

The main aim of this project is to detect smoke and fire and it sends a email to the employee or owners mobile in case it found any smoke or fire

Vision Guard AI - 2026

An AI-powered surveillance system that uses computer vision to detect unusual or potentially dangerous activities in real time and provide instant alerts

CERTIFICATES

1. Cloud Computing - IIT Kharagpur(NPTL)
2. Data Visualization - Johns Hopkins University(Coursera)
3. Design and Analysis of Algorithms - Clemson University(Coursera)
4. Introduction to Structured Query Language (SQL) - University of Michigan(Coursera)
