 91+9008305429

 naveenkumar062913@gmail.com

 Bengaluru, Karnataka, India

SKILLS

Languages :

C/C++, Python, JavaScript,HTML,CSS, SQL,Reactjs

Key Expertise :

Data Structures,Operating Systems, DBMS , Machine Learning , Front End Devlopoment

Data Analytics,Pandas, Cloud computing,Operating Systems

EDUCATION

RNS Institute of Technology, Bengaluru

2023 - 2027 : CGPA 7.64

Acquired a solid understanding of computer science fundamentals, including programming, object-oriented concepts, databases, operating systems, and software engineering. Applied this knowledge by developing projects and strengthening analytical and problem-solving skills.

PROJECTS

Sukriva (AI - Powered resume screening with Recommendation system) -2026

Developed Sukriva, an AI-powered resume screening platform that automates resume classification, resume scoring, skill gap analysis, and job recommendations using Python, Scikit-learn, TF-IDF, and interactive dashboards.

Fraud Transaction Detection Using Machine Learning -2026

Developed a machine learning-based system to detect and classify fraudulent financial transactions using transaction data.Built a predictive pipeline with data preprocessing and classification techniques to identify suspicious transactions and improve fraud detection accuracy

Smoke and Fire detection using machine learning - 2025

The main aim of this project is to detect smoke and fire and it sends a email to the employee or owners mobile in case it found any smoke or fire

AI-Driven Intrusion Detection System for Zero-Day Attack Detection Using Anomaly - 2026

The main aim of this project is to build an intelligent Intrusion Detection System (IDS) that can automatically analyze network traffic, distinguish between normal and malicious activity, and even detect unknown (zero-day) attacks

CERTIFICATES

Front End ,j JavaScript, Data visualization, Design and analysis of algorithm ,SQL Coursera Certification, Cloud Computing NPTEL Certfication.
